

Abstract

The invention relates to a pharmaceutical composition prepared by freeze-drying in vacuo, containing oxaliplatin as the active component and a pharmaceutically acceptable carrier, wherein the carrier is at least one alcoholic sugar of non-animal origin, the weight ratio of oxaliplatin to the alcoholic sugar of non-animal origin or alcoholic sugars of non-animal origin being 1:3 to 1:7. The invention also relates to the method of manufacturing of said composition and to the use of this composition in the treatment of tumors sensitive to oxaliplatin.
